General advice	
If inhaled	Move to fresh air. If breathing is difficult, give oxygen. Apply artificial respiration if victim is not breathing. Call a physician or poison control center immediately.
In case of skin contact	Immediately flush with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Call a physician or poison control center immediately. Wash contaminated clothing before reuse. Destroy or thoroughly clean contaminated shoes.

In case of eye contact	Immediately flush with plenty of water for at least 15 minutes. If easy to do,
	remove contact lenses. Call a physician or poison control center immediately. In
	case of irritaiton from airborne exposure, move to fresh air.

- If swallowed Call a physician or poison control center immediately. Rinse mouth. Do NOT induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.
- **4.2 Most important symptoms and effects, both acute and delayed** Causes severe skin and eye burns. Causes digestive tract burns. Mist or vapor extremely irritating to eyes and respriatory tract.
- **4.3 Indication of any immediate medical attention and special treatment needed** Treat symptomatically. Symptoms may be delayed/
