

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifiers

Product name Cupric Nitrate Trihydrate

CAS number 10031-43-3

Synonyms Copper Dinitrate Trihydrate, Copper(2+) Nitrate Trihydrate

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses Danger

1.3 Details of the supplier of the safety data sheet

Company Lab Alley, LLC

12501 Pauls Valley Road Austin, Texas 78737

U.S.A.

Telephone 512-668-9918 Fax 512-886-4008

1.4 Emergency telephone

Emergency Phone # US & Canada: 1-800-535-5053 INFOTRAC

International 1-352-323-3500 INFOTRAC

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

GHS Classification in accordance with 29 CFR 1910 (OSHA HCS)

Oxidizing solids
Category 2
Skin Corrosion/Irritation
Category 1B
Serious Eye Damage/Eye Irritation
Category 1
Specific Target Organ Toxicity (Single Exposure)
Category 1
Target Organs - Respiratory system
Category 3

2.2 GHS Label elements, including precautionary statements

Laballey.com Page 1 of 10

Pictogram

Signal Word Danger

Hazard statements

May intensify fire; oxidizer

Causes severe skin burns and eye damage

May cause respiratory irritation

Precautionary statements

Prevention Do not breathe dust/fume/gas/mist/vapors/spray

Wash face, hands and any exposed skin thoroughly after handling Wear protective gloves/protective clothing/eye protection/face protection

Use only outdoors or in a well-ventilated area

Keep away from heat/sparks/open flames/hot surfaces. -No smoking

Keep/store away from clothing/other combustible materials

Take any precaution to avoid mixing with combustible

Immediately cell a POISON CENTER or destar/physician

Response Immediately call a POISON CENTER or doctor/physician

Inhalation IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for

breathing

Skin IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with

water/shower

Wash contaminated clothing before reuse

Eyes IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lense, if

present and easy to do. Continue rinsing.

Ingestion IF SWALLOWED: Rinse mouth. DO NOT induce vomiting Fire In case of fire: Use CO2, dry chemical, or foam for extinction

Storage Store locked up

Store in a well-ventilated place. Keep container tightly closed.

Disposal Dispose of contents/container to an approved waste disposal plant.

2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

Very toxic to aquatic life with long lasting effects.

SECTION 3: Composition/information on ingredients

3.1 Components

Chemical name	Common name and synonyms	CAS number	Concentration
Cupric Nitrate Trihydrate	-	10031-43-3	>95%
Cupric Nitrate	-	3251-23-8	-

SECTION 4: First aid measures

4.1 Description of first-aid measures

General advice

Laballey.com Page 2 of 10

If inhaled Remove to fresh air. If not breathing, give artificial respiration. Call a physician or

poison control center immediately. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical

device

In case of skin contact Wash off immediately with soap and plenty of water while removing all

contaminated clothes and shoes. Call a physician immediately.

In case of eye contact Rinse immediately with plenty of water, also under the eyelids, for at least 15

minutes. Immediate medical attention is required. Keep eye wide open while

rinsing.

Immediate medical attention is required. Do NOT induce vomiting. Drink plenty of

water. Never give anything by mouth to an unconscious person.

4.2 Most important symptoms and effects, both acute and delayed

Causes burns by all exposure routes. Ingestion causes severe swelling, severe damage to the delicate tissue and danger of perforation.

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media Co2, dry chemical, dry sand, alcohol-resistant foam

Unsuitable extinguishing media No information available

5.2 Specific hazards arising from the substance or mixture

The product causes burns of eyes, skin and mucous membranes. Oxidizer: Contact with combustible/organic material may cause fire. May ignite combustibles (wood paper, oil, clothing, etc.). Do not allow run-off from firefighting to enter drains or water courses.

5.3 Special protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Thermal decomposition can lead to release of irritating gases and vapors. Hazardous combustion products: thermal decomposition can lead to release of irritating gases and vapors.

5.4 Further information

Flash Point No information available

Autoignition Temperature No information available

Explosion limits

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Use personal protective equipment as required. Evacuate personnel to safe areas. Avoid contact with skin, eyes or clothing.

6.2 Environmental precautions

Do not flush into surface water or sanitary sewer system. Do not allow material to contaminate ground water system. Prevent product from entering drains. Local authorities should be advised if significant spillages cannot be contained.

6.3 Methods and materials for containment and cleaning up

Sweep up and shovel into suitable containers for disposal. Avoid dust formation.

6.4 Reference to other sections

See section 2 for full list of hazard and precaution statements.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Precautions on safe handling

Wear personal protective equipment/face protection. Do not get in eyes, on skin, or on clothing. Keep away from clothing and other combustible materials. Use only under a chemical fume hood.

Hygiene measures

Do not breathe dust. Do not ingest. If swallowed then seek immediate medical assistance.

7.2 Conditions for safe storage, including any incompatibilities

Storage conditions

Keep containers tightly closed in a dry, cool and well ventilated place. Keep in properly labeled containers. Do not store near combustible materials. Corrosives area. Incompatible materials.

Incompatibilities

Ammonia. Cyanides. Acid anhydrides. Strong reducing agents. Combustible material.

Laballey.com Page 4 of 10

SECTION 8: Exposure controls/personal protection

8.1 Occupational exposure limits

US. ACGIH Threshold Limit Values

Component	Type	Value
Cupric Nitrate Trihydrate	TWA	1 mg/m3
Cupric Nitrate	TWA	1 mg/m3

US. NIOSH: Pocket Guide to Chemical Hazards

Component	Type	Value
Cupric Nitrate Trihydrate	IDLH	100 mg/m3
	TWA	1 mg/m3
Cupric Nitrate	IDLH	100 mg/m3
Cupile Miliale	TWA	1 mg/m3

8.2 Exposure controls

Appropriate engineering controls

Use only under a chemical fume hood. Ensure that eyewash stations and safety showers are close to the workstation location. Ensure adequate ventilation, especially in confined areas.

Personal protective equipment

Eye/face protection

Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166

Skin protection

Wear appropriate protective gloves and clothing to prevent skin exposure

Respiratory protection

Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN149. Use a NIOSH/MSHA or European Standard EN149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.

Control of environmental exposure

Handle in accordance with good industrial hygiene and safety practice.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical State Solid Appearance Blue

Laballey.com Page 5 of 10

Odor Odorless

Odor Threshold No information available

pH 4.0 2M aq.sol Melting Point/Range 114 °C

Boiling Point/Range No information available Evaporation Rate No information available

Flammability (solid) Not applicable

Flammability or explosive limit
Vapor Pressure
Vapor Density
No information available
No data available
No data available

Density No information available

Solubility 267 g/100 ml
Partition coefficient; n-octanol/water No data available

Autoignition Temp No information available Decomposition Temp No information available

Viscosity Not applicable Molecular Formula Cu N2 O6 . 3 H2 O

Molecular Weight 241.6

VOC Content(%) No information available Oxidizing properties No information available

9.2 Other safety information

No information available

SECTION 10: Stability and reactivity

10.1 Reactivity

Yes

10.2 Chemical stability

Moisture sensitive. Oxidizer: Contact with combustible/organic material may cause fire.

10.3 Possibility of hazardous reactions

None under normal processing

10.4 Conditions to avoid

Excess heat. Incompatible products. Exposure to moisture. Exposure to air or moisture over prolonged periods. Combustible material.

10.5 Incompatible materials

Ammonia, Cyanides, Acid anhydrides, Strong reducing agents, Combustible material

10.6 Hazardous decomposition products

Thermal decomposition can lead to release of irritating gases and vapors.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Laballey.com Page 6 of 10

Product Information, Component Information

Acute toxicity

Component	LD50 Oral	LD50 Dermal	LC50 Inhalation
Cupric Nitrate Trihydrate	1	Not listed	Not listed
Cupric Nitrate	1	Not listed	Not listed

Skin corrosion/irritation

Causes burns by all exposure routes

Serious eye damage/eye irritation

Causes burns by all exposure routes

Respiratory or skin sensitization

Causes burns by all exposure routes

Germ cell mutagenicity

No information available

Carcinogenicity

Component	CAS	IARC	NTP	ACGIH	OSHA	Mexico
Cupric Nitrate Trihydrate	10031-43-3	Not listed				
Cupric Nitrate	3251-23-8	Not listed				

Specific target organ toxicity - single exposure

Respiratory system

Specific target organ toxicity - repeated exposure

None known

Reproductive toxicity

No information available

Chronic effects

Ingestion causes severe swelling, severe damage to the delicate tissue and danger of perforation.

11.2 Additional Information

No information available

SECTION 12: Ecological information

12.1 Toxicity

Product		Species Test Results	
Cupric Nitrate	LC50	Freshwater Fish	0.29 mg/L 96h
	EC50	Water Flea	0.026 mg/L 48h

Laballey.com Page 7 of 10

12.2 Persistence and degradability

May persist based on information available

12.3 Bio accumulative potential

No information available

12.4 Mobility in soil

Will likely be mobile in the environment due to its water solubility

12.5 Results of PBT and vPvB assessment

No information available

12.6 Endocrine disrupting properties

No information available

12.7 Other adverse effects

No information available

SECTION 13: Disposal considerations

13.1 Waste Disposal Methods

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.

SECTION 14: Transport information

DOT (US)

UN-no. UN3085

Proper Shipping Name Oxidizing solid, corrosive, n.o.s.
