General advice

If inhaled Remove to fresh air. If breathing is difficult, give oxygen. Do not use mouth-to-

mouth method if victim ingested or inhaled the substance; give artificial

respiration with the aid of a pocket mask equipped with a one-way valve or other

proper respiratory medical device. Get medical attention immediately if

symptoms occur.

In case of skin contact Wash off immediately with plenty of water for at least 15 minutes. Get medical

attention.

In case of eye contact Rinse immediately with plenty of water, also under the eyelids, for at least 15

minutes. Get medical attention.

If swallowedDo NOT induce vomiting. Call a physician or poison control center immediately.
