## SECTION 4: First aid measures

### 4.1 Description of first-aid measures

General advice

<b>If inhaled</b>	If unconscious, place in recovery position and seek medical advice
<b>In case of skin contact</b>	Immediate medical treatment is necessary as untreated wounds from corrosion of the skin heal slowly and with difficulty.
<b>In case of eye contact</b>	Small amounts splashed into eyes can cause irreversible tissue damage and blindness. In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Continue rinsing eyes during transport to hospital.
<b>If swallowed</b>	Clean mouth with water and drink afterwards plenty of water. Keep respiratory tract clear. Do NOT induce vomiting. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.

#### 4.2 Most important symptoms and effects, both acute and delayed

No information available

#### 4.3 Indication of any immediate medical attention and special treatment needed

Note to physician: treat symptomatically

### SECTION 5: Firefighting measures

#### 5.1 Extinguishing media

**Suitable extinguishing media** Alcohol-resistant foam, Carbon dioxide, dry chemical

**Unsuitable extinguishing media** High volume water jet

#### 5.2 Specific hazards arising from the substance or mixture

Hazardous combustion products: Acetic acid. Do not allow run-off from fire fighting to enter drains or water courses.

#### 5.3 Special protective equipment and precautions for firefighters

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments.
