## SECTION 4: First aid measures

### 4.1 Description of first-aid measures

#### General advice

<b>If inhaled</b>	Move exposed to fresh air. Give artificial respiration if necessary. If breathing is difficult, give oxygen. Loosen clothing and place exposed in a comfortable position. Seek medical assistance if cough or other symptoms appear.
<b>In case of skin contact</b>	Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. Take victim immediately to hospital. Consult a physician.
<b>In case of eye contact</b>	Protect unexposed eye. Flush exposed eye gently using water for 15-20 minutes. Remove contact lenses while rinsing. Get medical attention immediately.
<b>If swallowed</b>	Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical aid immediately and call Poison Control Center.

### 4.2 Most important symptoms and effects, both acute and delayed

May cause muscle tremor and impaired motor function. May cause cardiac disturbances. Severe over-exposure can produce lung damage, choking, unconsciousness or death. Shortness of breath, headache, nausea, dizziness, irritation/burns, all routes of exposure. Can cause ulceration of the conjunctiva and cornea. May cause allergic contact dermatitis. Cause gastrointestinal irritation with nausea, vomiting and diarrhea.

### 4.3 Indication of any immediate medical attention and special treatment needed

If seeking medical attention provide SDS document to physician. Physician should treat symptomatically. The concentration of mercury in whole blood is a reasonable measure of the body burden of mercury and thus is used for monitoring purposes. The use of Dimercaprol or BAL (British Anti-Lewisite), or d-Penicillamine as a chelated agent should be determined by qualified medical personnel. Persons with kidney disease, chronic respiratory disease, or skin disease may be at increased risk. Get medical aid immediately and call Poison Control Center.

## SECTION 5: Firefighting measures

### Precautions on safe handling

Avoid contact with skin, eyes, and clothing. Follow good hygiene procedures when handling chemical materials. Refer to Section 8. Follow proper disposal methods. Refer to Section 13. Do not eat, drink, smoke, or use personal products when handling chemicals substances. Do not breathe dust, mist, or vapor. Do not ingest or inhale. Extreme care should always be taken to prevent skin and gastrointestinal absorption because there routes of entry can greatly increase the total body burden.

### Hygiene measures

Perform routine housekeeping. Wash hands before breaks and immediately after handling the product. Avoid contact with skin, eyes, and clothing. Before rewearing wash contaminated clothing.

## 7.2 Conditions for safe storage, including any incompatibilities

### Storage conditions
