

Ready to Eat Statement

Sodium Chloride Crystal, FCC Grade, Kosher

Ready to eat (RTE) food refers to “food that is normally eaten in its raw state or any other food, including a processed food, for which it is reasonably foreseeable that the food will be eaten without further processing that would significantly minimize biological hazards.”

Sodium Chloride Crystal, FCC also called Salt (NaCl) is bacteriostatic substance with a low water activity. For this reason, Salt do not support microbiological growth.
