

Statement of Source

Sodium Hydroxide, Pellets, ACS, USP/NF, FCC/Food Grade

The above mentioned product is a synthetic product manufactured through a chemical synthesis route using inorganic salts of sodium followed by filtration, purification and drying. No any additives of organic in nature are added or used in the process of manufacturing and Lab alley to the best of our knowledge declares that the product does not contain microbial contamination. The product has not been tested for microbial limits because neither of the ACS, USP and FCC compendia have the specifications for microbial detection test and limits. Furthermore, the product inherently has excellent antimicrobial properties and does not support the microbial growth of any kind.
